WELLBEING & COMMUNITY

Ensuring that your health and wellbeing is the best it can be at University is vitally important so that you can fulfill your academic potential. Learning how and when to ask for help is an important part of this, along with an understanding of why some problems arise and how you can self-care!

FIND YOUR FUTURE

Opportunities to dip into the reality of possible future career paths! Hear from the people who really know what it's like to do your dream job - the highs and the lows. Sessions often include an opportunity to get involved with a CV clinic, a mock interview or practice assessment centre exercise.
