

## Signs of Summer Hunt

Let's go on a nature hunt! Try and find all of these signs of summer within our garden today!

Trees like **oak** spreading out their leaves. Look out for hazel, sycamore, beech and birch as well!

**Grasshoppers and crickets**, especially in long grass. Listen out for their calls!

**Poppies** - there are red and yellow ones too!

**Squirrels** out foraging for food.

**Frog hoppers** - These little green bugs make clumps of foam to hide in!

**Knapweed** - these can come in lots of colours!

**Meadow buttercups**, growing best between April and October.

**Rabbits** grazing for food.

**Greenfinches** and other finches - look out for them around the feeding tables!

**Bees** - can you find our bee hive in the gardens?

**Shield bugs** - lots of different kinds to find!
