

Make a Shadow Puppet Dragon for Lunar New Year

1. Print out this sheet on paper or card and cut out* the two pieces for your dragon.

2. Decorate the pieces as colourfully as you can.

You can collage, draw patterns or colour them in. Don't forget to put an eye on!

3. Pop a split pin* through the middle and tape a lollipop stick or thin stick onto the back of the head end and the tail end.

4. Now you should be able to make your dragon move!

***Always ask for an adult's help when using scissors and split pins**

We would love to see your shadow puppets. If your parents are happy with this they can email us at 4Schools@durham.ac.uk or they can post them on Twitter tagging @dlearning.
